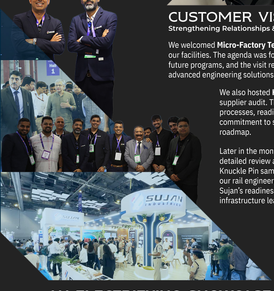
HUSE MOBILITY

THE COLLECTIVE

Centerstage Edition 07

As Sujan continues to expand its impact across sectors and geographies, this month's edition captures a series of defining moments, from leadership recognitions and facility milestones to breakthroughs in technology and media visibility. With every initiative, our teams are pushing boundaries, strengthening partnerships, and reaffirming our commitment to innovation, quality, and purposeful growth.



CUSTOMER VISITS

Strengthening Relationships & Unlocking Opportunities

We welcomed **Micro-Factory Tech** for a comprehensive walkthrough of our facilities. The agenda was focused on long-term collaboration across future programs, and the visit reaffirmed our shared goal to co-develop advanced engineering solutions.

We also hosted **HAL-Kanpur** on October 13, 2025, for a supplier audit. The visit showcased Sujan's quality-first processes, readiness for aerospace-grade production, and commitment to supporting India's defence manufacturing roadmap.

Later in the month, the **Strato team** visited our plant for a detailed review and **First Article Inspection (FAI)** of Knuckle Pin samples. Their engagement further validated our rail engineering strength and transparency, reinforcing Sujan's readiness to scale with global OEMs and infrastructure leaders.

AN ELECTRIFYING SHOWCASE

IREE 2025 – A Resounding Success

IREE 2025, Asia's largest and the world's second-largest rail exhibition, proved to be a game-changing platform. Sujan Industries took center stage with a showcase of **AI-powered safety solutions, sensor platforms,** and **precision rail components.**

Our booth hosted live demos, interactive prototypes, and conversations with global innovation partners like **Rail Vision, Nexxiot,** and **TD.** The response reinforced our leadership in building **smart, connected, and future-ready railway infrastructure.**

A SPECIAL HONOUR

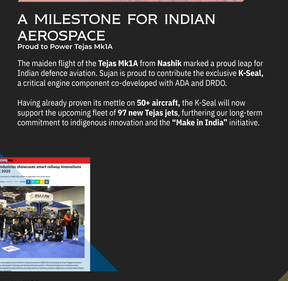
Minister of State for Railways Visits Our Booth

We were honoured to host the **Hinister of State for Railways, Hon'ble Shri Ravneet Singh Bittu** at our pavilion during IREE 2025. The visit highlighted Sujan's contribution to India's smart rail transformation and reaffirmed the government's recognition of our technology-led manufacturing capabilities.

LIGHTING THE WAY FORWARD

Dhanteras & Diwali Celebrations

From colourful décor to vibrant traditions, **Diwali at Sujan** was a festival of light, unity, and gratitude. Across our facilities, we celebrated with traditional attire, dance, a Diwali puja and a Rewards & Recognition ceremony to honour our people. A moment to pause, celebrate progress, and look forward to greater achievements together.



A MILESTONE FOR INDIAN AEROSPACE

Proud to Power Tejas MK1A

The maiden flight of the **Tejas Mk1A** from **Nashik** marked a proud leap for Indian defence aviation. Sujan is proud to contribute the exclusive **K-Seal,** a critical engine component co-developed with ADA and DRDO.

Having already proven its mettle on **50+ aircraft,** the K-Seal will now support the upcoming fleet of **97 new Tejas jets**, furthering our long-term commitment to indigenous innovation and the **"Make in India"** initiative.

INSIGHTS

Sujan Industries advances railway safety and efficiency with new AI-powered solutions at IREE 2025

Sujan drives technologies and collaborative partnerships enhance predictive maintenance, operational efficiency, and passenger safety

Leading the digital transformation of railway infrastructure, Sujan Industries showcased cutting-edge solutions at IREE 2025 (Indian Railway Equipment Exhibition) held at Bombay Exhibition Centre, Mumbai. The company showcased integrated smart rail technology platforms, including AI-powered safety systems, sensor platforms, and precision rail components, designed to enhance operational efficiency, predictive maintenance, and passenger safety across India's railway network.

The company showcased its Smart Wagon and Smart Coach platforms, alongside advanced sensor technologies and AI-driven analytics, aimed at real-time monitoring, predictive maintenance, and improved passenger safety. These solutions are designed to support India's railway modernisation initiatives and the broader push toward smart mobility and digital infrastructure.

Speaking on the occasion, Sujan Industries emphasised that its technologies are designed to address critical challenges in India's railway ecosystem, including safety, reliability, and operational efficiency. The company underscored its commitment to supporting the Ministry of Railways' vision for a smart, connected, and future-ready railway infrastructure.

Sujan Industries showcases smart railway innovations at IREE 2025

Sujan Industries showcases smart railway innovations at IREE 2025 | Manufacturing Today

Sujan Industries showcased its latest rail technology solutions at the Indian Railway Equipment Exhibition (IREE) 2025, highlighting its focus on smart, connected, and future-ready railway infrastructure. The company showcased integrated sensor platforms, AI-powered safety systems, and precision rail components, underscoring its commitment to enhancing operational efficiency, safety, and passenger experience across India's railway network.

IN THE HEADLINES

Featured in ET Edge | ET Infra | Manufacturing Today

We were thrilled to see our IREE showcase featured prominently across India's leading manufacturing and infrastructure publications.

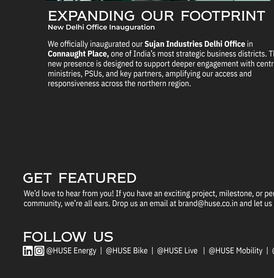
"Sujan Industries Advances Railway Safety and Efficiency with New AI-Powered Solutions at IREE 2025"
– Economic Times, Infra

This coverage marked a new high in our brand visibility, product recognition, and momentum across national and global audiences.

SAFETY FIRST

Fire Drill at Hosur Facility

Our **Hosur plant** conducted a full-scale fire drill this month, reinforcing emergency preparedness, safety protocols, and team coordination. At Sujan, operational excellence is always built on a foundation of safety.



EXPANDING OUR FOOTPRINT

New Delhi Office Inauguration

We officially inaugurated our **Sujan Industries Delhi Office** in **Connaught Place,** one of India's most strategic business districts. This new presence is designed to support deeper engagement with central ministries, PSUs, and key partners, amplifying our access and responsiveness across the northern region.
